

Full Stack Node.js Developer and Web Specialist

Jeff Straney | 352-454-7665 | straneyjeff@gmail.com | [Github](#)

1216 Lake Lucerne Circle. Winter Springs, FL.

My Mission

Dedication to the efficiency, maintainability, and elegance of web services

Primary Talents

- Building web applications and automated services using the Node.js runtime with Express, React, Webpack and other contributed Node packages
- Configuring, running and managing popular services primarily with systemd (Redis, Apache, Nginx, MySQL, PostgreSQL, Solr)
- Transforming and reading data via RESTful APIs using OAuth2
- Creating effective, easy to maintain markup using HTML5 and CSS3. Prefers Less as language extension for CSS, but will use Sass on request
- Enhancing discoverability using Apache Solr. Working experience installing and configuring Solr cores and transforming documents with Solr filters and analyzers.
- Maintaining code-pipelines using standard developer tools such as Git and SSH
- Managing own Agile workflow using enterprise tools such as Jira and Confluence

Full-Time Work History

- Web Developer - Orange County Library System - (2017 - present)
- Web Design Specialist - Orange County Library System - (2016 - 2017)

Freelance

- Patron Point - Enhancing customer analytics tools (2019 - present)
- Pathology Specialists Group - Built an employee calendar system (2017)

Education

- B.S. in Computer Science - University of Central Florida (2013 - present)*
- A.A. General - Valencia College (2013)

* I have been working full time and working on my B.S. This summer I will have only 5 classes left to graduate.
